Professional Experience

2021-ongoing, Evaluation Consultant, Stanislaus County Office of Education

- Program monitoring and evaluation services for the TUPE program, including evaluation instrument development, data analysis, and reporting.

2018-ongoing, Evaluation Consultant, Stanislaus County Tobacco Prevention Program
2017-ongoing, Evaluation Consultant, Sonoma County Tobacco Prevention
2011-ongoing, Evaluation Consultant, Yuba County Tobacco Education Program
2009-ongoing, Evaluation Consultant, Sutter County Tobacco Control Program

- Development of evaluation plan and tools, data analysis and reporting of the Tobacco Control Program's activities, as mandated by the California Tobacco Control Program.

2011-2018, Database Consultant, Sonoma County Behavioral Health Department

- Maintenance and technical assistance for a Microsoft Access database for Sonoma County's Project SUCCESS; data analysis and reporting of results as required for the project's Mental Health Services Act (MHSA) funding.

2011, Temporary Department Analyst, Sonoma County Department of Human Services

- Analysis of various datasets, including data related to the County's JobLink and CMSP programs, as needed by Department staff for reporting to stakeholders.

2010-2011, Evaluation Consultant, Drug Abuse Alternatives Center

- Development of client satisfaction and six-month follow-up surveys, including data collection and reporting of survey results to meet funder reporting requirements.

2009-2011, Database Consultant, Sonoma County Department of Health Services, Prevention and Planning Division

- Development of a Microsoft Access database for data collection regarding Sonoma County's Project SUCCESS, a program targeting at-risk high school students.

2001-2011, Evaluation Associate, DRA

- Evaluation Associate for an updated benefit-cost analysis of California's Prison Industry Authority, providing data analysis and reporting services. (2010-2011)
- Evaluation Associate for the cost-benefit analysis of the California HealthCare Foundation's Expanding the Availability of Diabetic Retinopathy Screening Initiative, providing data analysis and data collection tool development. (2007-2008)

- Evaluation Associate for Sutter County's Tobacco Control Program providing evaluation plan and tool development, data analysis and reporting services. (2001-2009)
- Analyzed and reported county specific data entered into the statewide Evaluating Local Interventions (ELI) data collection system and developed tools and protocols for evaluating various programs, including Project ReConnect, for the Sonoma County Department of Health Services Prevention and Planning Division. (2002-2008)
- Evaluation Associate for planning the revision and expansion of data, information development and reporting systems for PRIDE Industries. (2006-2007)
- Evaluation Associate for the benefit-cost analysis of California's Prison Industry Authority, providing data analysis and reporting services. (2005-2007)
- Developed a database used to capture all aspects of the La Luz Center's work, including capacity for user-friendly data entry, automated reports, and customization. (2005)
- Developed a screening database employed at eight Indian Health Programs throughout California for a Tele-based Diabetic Retinopathy Screening Program. (2003-2004)
- Developed automated database reports for a statewide case management database, conducted data analysis and wrote individual site reports for the County Medical Services Program Wellness and Prevention Program. (2002-2004)
- Conducted data analysis and wrote individual site reports on telemedicine and telehealth programs for the California Telemedicine & eHealth Center. (2001-2003)

<u>2009, Evaluation Consultant, Sonoma County Department of Health Services, Prevention and Planning Division</u>

- Evaluation of Project ReConnect, including development of survey and interview instruments and analysis and reporting of data in connection with the program's activities.

<u>2007-2009, Special Consultant, California Prison Industry Authority</u>

- Developed, from the ground up, an inmate tracking system using Microsoft Access to collect a full range of data on all California Prison Industry Authority inmate employees.

<u>1999-2001, Teaching Assistant, University of California, Davis Statistics Department</u>

- Taught undergraduate courses in statistics and trained students in the use of statistical software packages.

<u>1998-1999, Laboratory Assistant, CSU, Stanislaus Computer Science Department</u>

- Configured and maintained lab computers, assisted students with programming and web design.

Education

M.S. in Statistics, University of California, Davis, 2001.

B.S. in Mathematics, California State University, Stanislaus, 1999. Minor in Computer Science.

Software

Experienced with the use of SPSS and Excel for data analysis, as well as Microsoft Access for database design.
