## Internship Placement Tracker

**The Internship Placement Tracker** is a CCPHIT tool for UC Berkeley partners, to support the tracking and management of CCPHIT student internships. With a goal of reaching **125** completed internships, this document aids in monitoring progress and ensures that students are meeting the internship requirements needed for a paid internship experience. The accompanying pie chart visually represents the distribution of internships across different stages and categories, allowing UC Berkeley partners to quickly assess overall progress and identify areas needing attention.
